## Passion for Precision

Lapua, or more officially Nammo Lapua Oy and Nammo Schönebeck GmbH, is part of the large Nammo Group. Our main products are small caliber cartridges and components for sport, hunting and professional use.

For decades Lapua has strived to produce the best possible cartridges and components for those who have a passion for precision. The results from various competitions worldwide prove that we are the preferred partner for the champions, everywhere.

This has been achieved by consistent product development and cooperation with top shooters.

The top quality and superior accuracy that are characteristic to all Lapua cartridges are achieved with precise combining of the components. Reliable and timely ignition, optimal muzzle velocity and excellent ballistic properties are the result of well designed and carefully manufactured components. A cartridge can be perfect when all components match together perfectly.

### World famous quality

*Lapua's world famous quality comes partly from decades of experience, top-quality raw material and a well-managed manufacturing process. Despite the automation in production and quality assurance, our staff personally inspects every lot and, if necessary, even each individual cartridge.*

### Certified

Nammo Lapua Oy's quality system conforms with both ISO 9001 and AQAP 2110. We have also been awarded the ISO 14001 environmental system certificate.

Part of **Nammo** Group

Lapua .22 rimfire cartridges have earned numerous top competition gold medals and world records. These cartridges have delivered exceptional performance especially in ISSF disciplines, benchrest shooting, biathlon and in 60 shots prone .22 LR competitions. Your selection of the best match ammunition for your firearm is undoubtedly a deciding factor in the most demanding events.

## The Golden history of Lapua .22

X-ACT has been tested by most of the world class top shooters, and the comments have been highly complimentary: "The best ammunition I ever shot." X-ACT is true passion for precision.

**Lapua started manufacturing the .22 rimfire ammunition just after WWII, in 1947.** Lapua ammunition in red, white and blue box became recognized for its accuracy and soon gold medals were shot in both world shooting championships and Olympic competitions. Lapua took its place on .22 rimfire ammunition top level.

Lapua introduced the .22 LR ammunition with a distinctive "blue box" brand, later following such products as Match Grade and Championship, which became world famous for their accuracy and match-winning results. Lapua developed advanced production technology that keeps our quality at an incredibly high level, and made such successful products possible. Lapua was also the first manufacturer that introduced different bullet diameters for the .22 LR to help shooters choose the best bullet size for their firearms.

### Future of success

In the 2000's Lapua set next generation standards for the .22 LR match ammunition with the **X-ACT** ammunition that proved to be the most accurate and most uniform .22 rimfire ammunition available.

Lapua has served shooters for more than six decades with the world's best .22 rimfire match ammunition. In future, we look forward to providing you with the same competitive edge that has made your brightest medals a reality.

Lapua supports the world's best shooters as members of the Lapua Team. The members are a valuable information channel for product development. A close interaction with the world's best shooters ensures the highest quality ammunition.

# Lapua Team 2014

Kirsten Weiss (USA) was a three-time All-American in smallbore

## USA

- Tony Boyer
- Faye Boyer
- Tony Tello
- Steve Reiter
- Brian Zins
- Mark Pharr
- Philip Hemphill
- Kevin Nevius
- Mike Miller
- Kent Reeve
- John Whidden
- Jack Neary
- Mallory Nichols
- Nancy Tompkins
- Evil Roy
- Kirsten Weiss
- Erik Cortina
- Jeff Lindblom
- Francis Kuehl
- Cathy Winstead-Severin
- Shawn McKenna

## EUROPE

- Juha Hirvi (FIN) - Team CF Captain
- Charlotte Jakobsen (DEN)
- Peter Sidi (HUN)
- Raine Peltokoski (FIN)
- Per Sandberg (SWE)
- Sonja Pfeilschifter (GER)
- Mick Gault (GBR)
- Eva Friedel (GER)
- Josselin Henry (FRA)
- Christian Reitz (GER)
- Kim-Andre Lund (NOR)

Brian Zins (USA) won his 12th NRA Pistol Champion title in 2013!

## Hall of Fame filled with gold

Since 1930, Lapua cartridges have been used to win more than a hundred gold medals in the Olympics and World Championships, as well as to break numerous world records. Shooters who trust Lapua's cartridges are also at the top in demanding military shooting disciplines. Lapua cooperates with competitors in shooting disciplines, both at the cutting edge and at junior level.

## Highlights of 2013

### Kevin Nevius

- 2013 NRA National Metric Any Sight Prone Championships – 1st
- Place 2013 Mid-Atlantic 6400 Championship – 1st Place (new civilian record)

### Philip Hemphill

- 2013 NRA Pistol Championship – High Law Enforcement
- 2013 NRA Pistol Championship – High Senior
- 2013 Alabama State Pistol Championship – 1st Place

### Brian Zins

- 2013 – NRA National Pistol Champion

### Mark Pharr

- 2013 Texas State Smallbore Silhouette Championships – 2nd place
- 2013 NRA National Smallbore Rifle Silhouette Championships – 2nd place Team

### Steve Reiter

- 2013 – NRA National Pistol Championship – Grand Senior Champion

### Nancy Tompkins

- 2013 NRA Smallbore Rifle Prone Championship – 2nd Civilian

### Cathy Winstead-Severin

- 2013 – Conard Bernhardt Cup Championship – 1st Place
- 2013 – NRA National Smallbore Hunter Rifle Silhouette Championship – 1st Place

### IBU World Championships Biathlon 2013 / Nove Mesto

- Unbeatable success again - Lapua takes 32 out of 33 medals in the World Championships, as all teams but one had chosen Lapua .22 LR Polar Biathlon as their competition ammunition

# Rimfire Sport Shooting

Lapua manufactures rimfire cartridges with utmost care and precision. Each cartridge is checked individually and all lots are thoroughly tested on ballistic values, gas pressure and grouping. The products are released for distribution only if all test results are within strict tolerance levels.

**Official partner of IBU**  
Lapua promotes the Biathlon sport and works closely with the International Biathlon Union. 85% of all Biathletes competing at the 2010 Winter Olympic Games in Vancouver and at the recent World Cup were using Lapua Polar Biathlon ammunition. This high quality ammunition was developed especially for extreme winter conditions. Of those athletes reaching the podium, 90-95% used Lapua.

## Rimfire Cartridges

Lapua's long experience in rimfire cartridge manufacturing shows in an outstanding series of medals and world records. Lapua cartridges bring the shooters success in every discipline. The compatibility of the cartridge and the rifle is especially important in prone disciplines.

Lapua's uncompromising approach to quality is probably most evident in rimfire cartridges. Although the quantity of shots fired is high, the marksman must be able to trust every single cartridge to work and hit its target accurately. We also manufacture state-of-the-art rimfire cartridges under the SK brand.

## Revolutionary X-ACT

Lapua is proud to present a revolutionary rimfire cartridge, the X-ACT. Customized production methods enabled us to create an accuracy level never seen before. The world's best shooters have been testing the ammunition and been amazed by the accuracy results.

## No Compromises

Whatever your shooting preference, you will find the right cartridge from our wide selection of .22 rimfire cartridges. These range from the X-ACT, simply the world's most accurate .22 cartridge, to ammunition specifically designed for biathlon sport shooting.

## User story

We have found the Center X to be extremely consistent shot to shot, with little difference between different lots of ammunition. Lapua quality gives me the confidence in my ammunition that I need to allow me to focus on the target and hitting that target", says Malory Nichols, Lapua Team USA.

## X-ACT

X-ACT has been developed after a long research period to combine the best properties of these materials into the very best ammunition possible. The shooters gain the benefit of absolute accuracy, reliability and consistency in this extremely sophisticated and high quality cartridge. X-ACT has been tested by most of the top world class shooters, and the comments have been nothing but the highest praise: "The best ammunition I ever shot." X-ACT is the very embodiment of our absolute passion for precision.

## Midas+

Midas+ is the improved generation of Midas. The long success story of Midas brought a lot of excellent results, which have been used for the development of the new generation. Lapua .22 Midas was behind the current 60 shots prone world record and the benchrest long rifle (BR-50) world record.

## Center-X

Center-X gives you the confidence of high quality ammunition. Try this versatile cartridge to see its performance.

## Pistol King

Pistol King has been loaded for success. It is reliable, provides excellent groups and gives a smooth shooting experience.

## Polar Biathlon

Polar Biathlon has been behind most biathlon medals worldwide for years. Ideal performance under all conditions with best possible results.

# Lapua Service Centers

**Lapua offers testing facilities now in Germany, Finland, Norway and USA.**

Patterned after the world renowned Lapua Rimfire Service Center in Schönebeck, Germany, the Mesa facility was opened in 2012 and gives American shooters the same opportunity to test not only various types, but also different lots of rimfire ammunition, in their firearms, under tightly controlled conditions.

**ADDRESS:** Lapua Rimfire Service Center, Nammo Tactical Ammunition, 4051 N. Higley Road, Mesa, AZ 85215

**BOOKING:** Service Center Manager Darrell Stettmeier, +1(480) 626-8648, dstettmeier@nammoinc.com

The rangemaster in Mesa, AS, USA: Darrell Stettmeier welcomes you!

## Other locations

### RØYKEN, NORWAY

The true professionals, Roy and Vegard, will not only find you the best gun-ammo combination, but also tune your rifle to top notch condition.

**ADDRESS:** Lapua Test Range Norway, Testskyting No DA, Bryhnsveien 5, NO-3440 RØYKEN. www.testskyting.no

**BOOKING:** Roy Skogly +47 906 35 101, roy@testskyting.no, Vegard Lund +47 906 02 569, vegard@testskyting.no

### VIERUMÄKI, FINLAND

Lapua opened a new rimfire range in Vierumäki in 2012. With all the sports and accommodation facilities at the same area, Vierumäki offers an all-in-one package for the shooter - all this at a close range from the Helsinki-Vantaa airport.

**ADDRESS:** Lapua Shooting Center, Vierumäki Areena, Urheiluopiston tie 373, FI-19120 Vierumäki

**BOOKING:** Asko Nuutinen +358 40 586 1357

### LAPUA, FINLAND

Long time Lapua factory test shooter Arvi Väkkilä hosts the 50 m range midtown Lapua. Service and experience like none other!

**ADDRESS:** Kustaa Tiiuntie 1, FI-62100 Lapua

**BOOKING:** Arvi Väkkilä +358 50 581 1728

### SCHÖNEBECK, GERMANY

Top shooters recommend ammunition tests in the Lapua .22 Service Center in Germany, equipped with high-tech testing technology. The special cooling chamber provides biathlon shooters an authentic climate to test their equipment also in winter conditions.

A wide range of Lapua and SK products will be available for testing. You can test pistols as well as rifles with different devices and find the best ammunition lot for your purposes.

**ADDRESS:** Lapua Rimfire Service Center, Nammo Schönebeck GmbH, Wilhelm-Dümglinstrasse 2, DE-39210 Schönebeck (Elbe)

**BOOKING:** Tel. +49 174 934 41820, service@lapua.com
